Feminist Perspectives on Transitional Justice

Feminist Perspectives on Criminal Law—Mary Chils 2000-12-19 Questions of evidence and proof are fundamental to the operation of substantive law and to the understanding of law as a social practice. The study of evidence involves issues of central concern to feminist scholars, including matters of epistemology, psychology, allocation of risk and responsibility. Debates about evidence, like debates about feminism, involve epistemological and ontological debates about knowledge and autonomy. In law, the law that is advanced as evidence is the knowledge as it is represented in human society. The information is used to inform us about the potential for the law to determine the evidence. The information is used to inform us about the potential for the law to determine the evidence. This book explores the contributions of feminist theory and methodology to the understanding of the law of evidence.

Feminism and criminology

-Tanya Lazar 2013-04-03 The work of feminism has had an important impact on criminology. The work of feminism has had an important impact on criminology. Feminist criminologists have developed theoretical and practical approaches to criminology that address the ways in which gender, race, class, and other social factors influence criminal behavior and the criminal justice system. Feminist criminologists have also challenged traditional assumptions about crime and justice, and have sought to develop a more just and equitable system.

Feminist Theories of Crime-Merry Morash 2017-07-05 This collection re-imagines the field of criminology with insights gleaned from feminist theory. Works included here illustrate that gender is a key organizing principle of social life. This means that men and women have gender, that patriarchal as well as gender must be theorized in both abstract structures and more concrete forms. The book provides a lucid and accessible overview of the field of gender and crime.

Feminist Perspectives on Tort Law-Janna Richardson 2012-12-05 This book provides a lucid and accessible overview of the field of gender and crime.

The Law on the Use of Force-Gina Hare Zacna 2013-01-14 This book presents the international laws on the use of force whilst demonstrating the unique insight a feminist analysis offers to this central area of international law. The book highlights key conceptual issues which underpin this area of the law and, to a lesser extent, develops international feminist method through rigorous engagement with the key writers in the field. The book looks at the key aspects of the UN Charter relevant to the use of force - Article 2(4), Article 51 and Chapter VII powers - as well as engaging with contemporary issues such as the protection of refugees and humanitarian intervention. The book is a key resource for those seeking to engage with a central area of international law, demonstrating the capacity of feminist legal theories to enlarge our understanding of key international legal dilemmas.

Women, Crime, and Criminal Justice: Rosemary Burdett 2014-04-16 Women, Crime and Criminal Justice is the winner of the Division of International Criminology's Distinguished Book Award 2014 and the Academy of Criminal Justice Sciences International and Section's 2015 Outstanding Book Award and the first fully international, comparative, and feminist book on focus to women on offenders, victims and justice professionals. It provides background, as well as specialized information that allows readers to comprehend the global variations of crime and punishment. The book posits that crime is a social construction and that the focus on women is needed due to a lack of representation and recognition. It also highlights the different experiences of women by women in justice professions such as the police, the judiciary and international peacekeeping. Provocative, highly topical, engaging and written by an expert in the field, this book enables students and researchers in women in criminal justice settings. This book is essential reading for those involved in the study of development, human rights, gender, governance, security sector reform, international relations and public health, as debates about these subjects are intrinsically linked to the issues surrounding women, crime and justice. It will also be useful for students taking courses on gender, crime and criminal justice, violence against women, international criminal justice and gender studies.

Women, Crime, and Justice-Elaine Gunnison 2016-05-19 Women, Crime, and Justice: Balancing the Scales presents a comprehensive analysis of the role of women in crime, crime prevention and the criminal justice system. It covers the key issues and debates from a gendered perspective and considers the experiences and perspectives of women in the criminal justice system. It explores the ways in which gender influences the experiences of women in the criminal justice system, and considers the impact of gender on the operation of the criminal justice system.

The Oxford Handbook of Transnational Feminist Movements-Raywida Baksh-Soodeen 2015 The Oxford Handbook of Transnational Feminist Movements explores the historical, political, economic and social contexts in which transnational feminist movements have emerged and spread, and the contributions they have made to the development of criminology as an academic discipline, as well as the shifting political and social contexts of feminist organizations and networks at all levels (local, national, regional, global and [local]); the role of civil society organizations and networks; and the role of the United Nations in the development of feminist movements and networks at all levels and in the shift from a UN resolution to action for women's rights.

Research Handbook on Feminist Jurisprudence-Robin West The Research Handbook on Feminist Jurisprudence surveys feminist theoretical understandings of law, including liberal and radical feminism, as well as socialist, relational, intersectional, post-modern, and pro-sex and queer feminist legal theories. The handbook explores the ways in which different forms of oppression, including the gender oppression of women, intersect and are reinforced in law and legal institutions. The handbook is divided into five sections: "Feminist Jurisprudence," "Feminist Legal Theory," "Feminist Legal Methodologies," "Feminist Legal Practice," and "Feminist Legal Theory and Practice." Each section is further divided into sub-sections, covering a wide range of topics, such as "Feminist Legal Theory: An Introduction," "Feminist Legal Theory: Feminist Legal Methodologies," "Feminist Legal Theory: Feminist Legal Practice," "Feminist Legal Theory and Practice: An Introduction," and "Feminist Legal Theory and Practice: Feminist Legal Theory and Practice." The handbook is a valuable resource for legal practitioners, law students, and scholars interested in feminist legal theory and practice.

**Gender and the Law** Judith Bourne 2018-04-17 Gender and the Law provides an ideal introduction to gender and feminist theory for students. Beginning with an overview of traditional notions of gender, the book establishes the key feminist and queer legal theories. It provides a basic structure and overview upon which students can build their understanding of some of the complex and controversial topics and debates around gender. Structured thematically, the book explores many fascinating and controversial legal issues, including issues of transgender rights; equal pay and equality in the workplace; societal changes and challenges within the regulation of personal relationships; the law surrounding consent and sexual offences; the role of gender norms in the criminal courts; legal regulation of prostitution and pornography; and the ways in which the law has responded to societal changes surrounding reproduction. With ‘thinking points’ and ‘further reading’ suggestions within each chapter, the authors encourage an engagement with critique and theory in order to understand this dynamic and challenging field.

**Women and Crime** Frances Heidensohn 1996-02-02 The second edition of Women and Crime is a carefully revised version of what has become the standard text on this subject. It provides a comprehensive review of findings about female criminality, women and criminal justice, and the treatment of female offenders. It also offers a clear analysis of theoretical perspectives, of images of deviant women and women’s experiences of social control. A new section reviews developments during the past decade and outlines the shifts in social research and crime concerns. The bibliography has been thoroughly revised and updated.
