Enabling Flexibility In Process Aware Information Systems

Advances in Software Engineering for Business-to-Business Communication (Eds. 2011), Business Process Management (BPM 2011), in September 2011. The 12 workshops comprised Adaptive Case Management and Other Non-Workflow Approaches (ACM 2011), Business Process Management; CCABPM 2017 – 1st International Workshop on Cross-cutting Aspects of Business Process Modeling; DeHMiMoP 2017 – 5th International Workshop on Declarative/Decision/Hybrid Mining & Modeling for Business Process Intelligence; Empowering Business Process Management with Artificial Intelligence (E-BPM 2017); Invited Sessions; BPM Forum 2017 – 1st International Workshop on Business Process Management Forum; BPM 2017 – 26th International Conference on Business Process Management; BPM 2017 – 10th International Workshop on Business Process Intelligence; BPM 2017 – 1st Workshop on Business Process Management (BPM 2017); Business Process Management in the Cloud (BPM 2017); Business Process Model Collections ( PMC 2017); Business Process Model Collections ( PMC-MR 2017); Business Process Modeling and Management (BPM 2017); Business Process Modeling in the Cloud (BPM 2017); Business Process Modeling in the Cloud (BPM 2017); Business Process Model Collections ( PMC-MR 2017); Business Process Modeling and Management (BPM 2017); Business Process Model Collections ( PMC-MR 2017); Business Process Modeling and Management (BPM 2017); Business Process Model Collections ( PMC-MR 2017); Business Process Modeling and Management (BPM 2017); Business Process Model Collections ( PMC-MR 2017); Business Process Modeling and Management (BPM 2017); Business Process Model Collections ( PMC-MR 2017); Business Process Modeling and Management (BPM 2017); Business Process Model Collections ( PMC-MR 2017); Business Process Modeling and Management (BPM 2017); Business Process Model Collections ( PMC-MR 2017); Business Process Modeling and Management (BPM 2017); Business Process Model Collections ( PMC-MR 2017); Business Process Modeling and Management (BPM 2017); Business Process Model Collections ( PMC-MR 2017); The eight workshops were Approaches for Enterprise Engineering Research (AppEER), International Workshop on BUSiness/IT ALignment and Interoperability (BUSITAL), International Workshop on Cognitive Aspects of Information Systems Engineering, CAiSE 2013, in June 2013. The 36 full and 12 short papers have undertaken a high-quality and selective acceptance policy, resulting in acceptance rates of up to 50% for the full papers. This has been achieved by selecting papers that contribute significantly to the field of enterprise engineering research.

Conceptual Modeling Perspectives (Jordi Cabello 2017-11-12) This book contains the refereed proceedings of the 12th International Joint Conference on E-Business and Telecommunications, ICETE 2016, held in Lisbon, Portugal, in June 2016. It includes 36 full papers, 12 short papers, and 1 invited talk, which were carefully reviewed and selected from 146 submissions. The papers are organized in six topical sections on conceptual modeling perspectives, enterprise engineering, information systems, business process modeling, software engineering, and e-business.

E-Business and Telecommunications (Mohamed S. Obaidat 2017-05-07) This book contains the refereed proceedings of the 13th International Joint Conference on E-Business and Telecommunications, ICETE 2017, held in Valencia, Spain, in June 2017. The 40 full papers, 5 short papers, and 2 invited talks presented in this volume were carefully reviewed and selected from 267 submissions. The papers are organized in seven topical sections on e-business and telecommunications, e-commerce and e-government, e-commerce and e-payment, e-commerce and e-commerce, e-commerce and e-commerce, e-commerce and e-commerce, and e-commerce and e-commerce.

The second section, entitled “Managing Knowledge using Social Media”, focuses on the use of social media for knowledge management and collaboration. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on social media and knowledge management, social media and business process modeling, social media and business process discovery, social media and business process monitoring, social media and business process optimization, and social media and business process education.

The third section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.

Information Systems in the Big Data Era (Jordi Cabello 2016-08-16) This book contains the refereed proceedings of the 11th International Conference on Advanced Information Systems Engineering, CAiSE 2018, held in Valencia, Spain, in June 2018. The 50 full papers, 12 short papers, and 1 invited talk presented in this volume were carefully reviewed and selected from 267 submissions. The papers are organized in seven topical sections on big data and information systems, big data and information systems, big data and information systems, big data and information systems, big data and information systems, big data and information systems, and big data and information systems.

The sixth section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.

Information Systems in the Big Data Era (Jordi Cabello 2016-08-16) This book contains the refereed proceedings of the 11th International Conference on Advanced Information Systems Engineering, CAiSE 2018, held in Valencia, Spain, in June 2018. The 50 full papers, 12 short papers, and 1 invited talk presented in this volume were carefully reviewed and selected from 267 submissions. The papers are organized in seven topical sections on big data and information systems, big data and information systems, big data and information systems, big data and information systems, big data and information systems, big data and information systems, and big data and information systems.

The sixth section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.

The sixth section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.

The sixth section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.

The sixth section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.

The sixth section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.

The sixth section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.

The sixth section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.

The sixth section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.

The sixth section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.

The sixth section, entitled “Managing Knowledge for Business Transformation”, discusses knowledge management and transformation in the context of business processes. The section includes 9 full papers, 2 short papers, and 2 invited talks, which were carefully reviewed and selected from 123 submissions. The papers are organized in six topical sections on knowledge management and transformation, knowledge management and process mining, knowledge management and process optimization, knowledge management and process simulation, knowledge management and process evaluation, and knowledge management and process education.
